

HOW DOES GEOGRAPHY RELATE TO YOU?

Year 6 Welcome to Geography

Focus: To describe your connections to the physical and human world.

BACKGROUND INFORMATION:

There are three strands to Geography, Human, Physical and environmental geography.

Within this there are five themes that underpin what we look at.

These are location, place, movement, region and human-environment interaction.

This is why geography is always changing and answering many of the questions that are present in the world at any given time.

Can you link three or more of these images?

Look at the images –
Can you think of 4
connections
geography?

EXPLAIN: YOUR LINKS TO THE WORLD

Martin Luther King said: “Before you finish eating breakfast in the morning, you’ve depended on more than half the world”.

We have more connections to the world than we realise, from turning on the lights to opening the cereal and pouring milk in the morning. From putting on clothes to listening to music on the way to school. Chances are our products have come a long way to get to us.

The more we learn about Geography, the more we can understand about our world, and ultimately have an impact on global matters such as climate change, child labour, fair wages for farmers, to name a few. But also local matters such as waste, energy and housing and transport.

TASK 1:

Look at all the words on this slide and choose 9 of them, writing 1 in each of the boxes in your booklet.

As you watch to the video, mark off each of the words when you see them.

Link to the video:

https://www.youtube.com/watch?v=5FVgg_u3auA

Words to choose from:

Coasts

Deserts

Waterfall

Wind turbines

Mountains

Lakes

Rainforests

Rivers

Coral reefs

Magma

Clouds

Weather

People

Cities

Tsunami

Cliffs

TASK 2:

Now that you're starting out on your journey at Bluecoat Aspley, we want you to become aware of the world that you live in and the issues that are around. Before we start to look at these in September, we would like you to take some time to map you local and national connections, then think more globally.

Start off by thinking about your connections in Nottingham, friends, family, shops etc.

Then Nationally, what do you know about the UK, can you locate your links to the UK, sporting teams, trips with family etc.

Then globally, who are your favourite movie stars, where do they come from, your music, favourite foods originate from.

Year 6 Geography Challenge sheet: Why not see how many of these activities you can do with your family or on your own. Email us to show us what you have done.

<p>Something to watch: The earth from space should amaze you</p> <p>https://www.bbc.co.uk/iplayer/episode/p072n7qd/earth-from-space-series-1-1-a-new-perspective</p> 	<p>Something to write:</p> <p>Imagine you are a journalist who has been given the task of writing about a journey you made somewhere. This can be to family abroad or a trip in the UK.</p>  <p>Email – aspleyadventures@bluecoat.uk.com</p>
<p>Something to read:</p> <p>Horrible Geography by Anita Ganeri covers topics such as raging rivers, to violent volcanoes.</p> 	<p>Something to research:</p> <p>Take a look at the BBC geography website and select a topic that interests you.</p> <p>https://www.bbc.co.uk/bitesize/subjects/zrw76sg</p> 
<p>Something to create:</p> <p>Can you create a map of your local area, can be from a birds eye point of view to make it easier. Locate roads, shops, schools etc.</p>	<p>Something to draw or paint:</p> <p>Produce a poster raising awareness of one of these issues, Climate change, rainforest deforestation, recycling.</p>
